

NAB Raft Race RULES 2015

1. Rafts must be built from river friendly recycled material. This means no old oil drums or any containers that have held fertilisers or any other nasty chemicals that could damage our river or oysters.
2. No sails or outboard motors allowed! 100% people powered only.
3. Have fun!
4. No, seriously, have fun. Oh, and if your raft falls to bits mid race....we'll have people on hand to haul you out (plus you get to take your flotsam and jetsam home with you!)
